

Child Safety Training

Introduction	Introduction to Child Safety Training and the topic of sexual abuse. This acts primarily as an attention grabber. As well, it attempts to replace a few common misconceptions with facts.
Section 1	Definition of Child Sexual Abuse - Section covers what constitutes as sexual abuse.
Section 2	Impact of Sexual Abuse – Section covers the effect of sexual abuse on victims, families and culture.
Section 3	Recognizing Child Molesters, Patterns of Behavior, and the Grooming Process – Section covers the process most abusers use to gain access, trust and time alone with victims.
Section 4	Recognizing the Warning Signs of Sexual Abuse – Section covers things to watch out for in order to prevent abuse.
Section 5	Reporting and Taking Reports of Abuse – Section covers what constitutes as a reportable offense and how to report abuse to authorities and supervisors.
Section 6	Principles to Reduce the Risk of Sexual Abuse – Section covers things organizations should be doing in order to create a culture that is intolerant of abuse and grooming behavior that might lead to abuse.
Quiz/Certificate	The total time on all sections is a little less than 55 minutes and the quiz will take another 5 or so depending on reading/connection speed. Certificate of Completion, quiz score and date completed will be stored along with the applicant's background report.

The online child safety training is an interactive video based training, with start-stop and pause features. The training includes testing, scoring and a certificate of completion. Training is approximately 55 minutes and includes 6 sections. A score of 80% or higher is required to pass. The score and certificate are stored in VERITY and a notification email is sent to the organization after training has been completed.
